

K-Love Radio provides me with a positive uplifting listening experience. With station I am not held hostage to listen to things that are contrary to my religious beliefs. I think it would be tragic for our community if K-love radio were not able to broadcast in it's current format. I would be forced to delve into subjects with my children that are not suitable for their young minds. K-Love radio provides a positive listening environment that is diminishing everyday in our secular society. It places the emphasis on God as the central focus of our lives.
